It is important to read this page before teaching the unit!

This model unit has been designed to be used at several levels of language expertise depending on the students' experiences with the French language.

Core French is a locally determined option in the Saskatchewan school system. This means that individual boards decide if Core French will be offered and at what level they will begin the program. As a result, depending on the school division, Core French programs begin at several different grades in our province (ex. Gr.1, Gr.4, Gr.7, Gr.9...). The Saskatchewan Education Core French curriculum guides have been developed on a Grade 1 through Grade 12 continuum. In order to meet the objectives of the entire curriculum, students would begin studying French in Kindergarten/Gr. 1 and continue through to the end of Gr.12.

Due to the diversity of the starting point of Core French programs, individual teachers may have to adapt the curriculum and supporting model units to meet the needs of their students. For example, if the Core French program begins in Grade 4, the teacher would have to adapt for age appropriateness and language ability material and units for Grades 1-3 to give the students the necessary background before beginning the Grade 4 units in the curriculum guide.

Throughout the unit, activities have been developed that would be age appropriate for younger students and other activities have been developed for older students. Although two or more specific grade levels have often been targeted because of correlation to the objectives in the curriculum guide, the unit may be adapted for any grade at the elementary level depending on the students' needs and abilities.

Teachers will choose the activities throughout the unit that are age and language level appropriate for their students regardless of grade levels mentioned in the unit as these were used primarily to provide an example of how the unit might be taught.

The Christmas theme should be introduced early in December. This unit will assist in developing Christmas activities and will encourage students to use Christmas vocabulary. This unit does not emphasize the religious aspect of Christmas but the vocabulary is included for those who wish to use it.

Field of experience :

Celebrations

Topic to be Developed :

Noël

Experiential goal :

Present a letter to Santa orally with a visual support

Suggested Steps :

1. Introduce the topic and discuss the experiential goal.
2. Explore what Christmas means to the students.
3. Brainstorm ways Santa learns how the students have behaved this year.
4. Discuss what students would like for Christmas this year.
5. Plan and create the format for the letter.
6. Practise reading the letter and presenting the picture.
7. Present letters and send them to Santa.
8. Reflect and discuss unit.

Learning Objectives :

Students will:

- create a written letter to Santa
- communicate their ideas in oral and written forms.
- improve their presentation skills (body language, voice, enthusiasm)
- develop group skills.
- increase knowledge of vocabulary related to Christmas.

The experiential goal :

- Christmas vocabulary
- use of the writing process in creating letters
- collaboration
- descriptions of what Christmas is about, what gifts...
- oral and written skills

Evaluation :

- checklists of unit vocabulary used with flashcards and annexes
- self-reflection form

Suggested Step :**1. Introduce the topic and discuss the experiential goal.**

- 1.1 To introduce the topic, distribute a Christmas shaped shortbread cookie to each student. A recipe is included in **Annexe 1**. Make sure no one eats the cookies until the end. Then start placing one « Noël » Christmas, « Décorations » decoration, and « Expressions » expression card on the board. Then go through the rest of the cards at random and the students will guess which category each card goes in. Go through the vocabulary and when the student has a corresponding cookie, they can eat it. « Je mange _____ » I am eating _____.

Teaching Notes :

You may want to bake the cookies as a class project.

- 1.2 Introduce the experiential goal to the students. It is to write a letter to Santa, present it to the class with a visual and then send the letter off to Santa. The visual could be a drawn or a cut-and-paste picture representing the letter's content. The letters could be mailed or emailed, depending on your grade level.

- 1.3 As a class and in groups, practise the vocabulary with a variety of games. These games should be used often throughout the unit for oral practise and review.

Games :

Concentration. Select cards and review as a class. Place two of each card on pocket chart (face down). Divide the class into two groups. A student points to two squares and turns them over. If they match, the student keeps them and gets another turn. If they do not match, the student puts the card back in the original spot. Encourage students to read the words aloud. Respond with « Bravo! » Bravo! or « Dommage! » Too bad!

Tic-Tac-Toe. Make a grid and put pictures instead of X's and O's. The teacher randomly chooses a word. When that word is on the student's card, the student will cross it out. The first student to get three in a row wins.

Charades. A student picks out a flashcard and acts it out while the other students try to guess it. The students

Teaching Notes**Teaching Notes**

can be placed in teams for this.

Qu'est ce que c'est? (What is it?) Divide the class into two teams. The teacher or a student shows a flashcard or the actual object. Whichever team gets the correct answer first gets a point.

Memory Game. Pick five flashcards and show them to the class. The students repeat the flashcards in French. Hide the cards and select students to try to remember as many of the cards as they can. To make it more difficult, increase the number of cards.

Which is Missing? Put five to ten cards on the chalkboard. Show them to the class and have the class repeat them. Divide the class into four teams. Send out four students – one from each team. While they are out of the room, have another student hide one card. Have the students come back in and guess which card is missing. The first one to say it correctly in French wins a point for the team.

Magic Flashcards. The teacher has a paper bag with flashcards in it and moves around the room. Each student, when it is his or her turn, says a word and then with their eyes shut, picks a card from the bag and says it. If what he says matches the card he wins and gets to keep the card. The student with the most cards at the end of the game wins.

Scramble. The teacher has the class (or part of) form a circle with one student in the middle. Everyone in the circle is given a card. The person in the centre calls out two vocabulary words. The students with those cards exchange places while the centre student tries to steal a place.

As-tu...? (Do you have...?). The students sit in a circle. Two students are asked to leave the room. The teacher tells one student sitting in the circle to hide a picture under himself or herself. The two students who left the room return and try to find the picture by asking, for example, « As-tu le Père Noël » Do you have the Santa Claus? The first student to find the picture wins.

Chaises musicales (Musical chairs). The students sit in a circle. Three chairs are placed in the centre of the circle. The picture cards are placed on the rug around

Teaching Notes

the chairs. Four students are chosen to walk around the chairs. As they walk around the chairs, the class sings or listens to a French song. When the four students hear a clap they stop but do not sit down. The teacher calls out a word and if the word is pictured they sit down. The student left standing is out. As in the real game, take a chair away each time.

- 1.4 **Annexe 2.** Students will listen to the recording on CD and colour the pictures the color indicated on the recording. The transcript of the listening activity is included in **Annexe 2.**

Teaching Notes :

- **Annexe 8.** You may want to reduce flashcards for individual sets.
- **Annexe 15** includes Christmas songs that can be sung throughout the unit.

Suggested Step :

2. Explore what Christmas means to the students.

- 2.1 Share your best Christmas memory with the class. Encourage students to share theirs.
- 2.2 **Annexe 3.** In groups, students draw a picture of what Christmas means to them. Each student should have three other pictures other than his or her own. Make sure that you discuss that each family has different traditions. This would be an appropriate time to bring in the concept of Christmas around the world. Some sites are listed in the Suggested Resources section of this unit so you can “visit” Christmas in different countries.

Suggested Step :

- 3. Brainstorm ways Santa knows how the students have behaved during the year.**
- 3.1 Discuss how sometimes we write Santa a letter to tell him if we have been naughty or nice. Share examples of naughty and nice moments. « Un temps où j'ai été gentil, gentille, était ____ ». A time when I was good was _____. « Un temps où j'ai été mauvais/mauvaise était _____ » A time when I was bad was _____.
- 3.2 **Annexe 4.** Naughty & Nice Thermometer. Students rate how good they have been by colouring in the thermometer.

Suggested Step :

- 4. Discuss what students would like for Christmas.**
- 4.1 Students choose flashcards that correspond to what they would like. Share these orally as a class. Prior to doing this activity, you may want to play some vocabulary games explained in **Suggested Step 1.3**.
- 4.2 On the board, add items that students would like but are not in the flashcards. You may want to have students draw pictures on paper the same size as the flashcards so you could include their words when playing future vocabulary games.
- 4.3 **Annexe 5.** What I Would like for Christmas. Orally share what students would like for Christmas. « Pour Noël j'aimerais ____ » For Christmas I would like _____. Possible answers could be the suggested vocabulary and flashcards. To make sure students are listening to each other, ask them what another student said they wanted for Christmas. « Qu'est-ce que ____ aimait pour Noël? » What does _____ want for Christmas? « Il, elle aimait un, une ____ » He, she, would like a, an _____. Have the students copy down the French word for what they want and draw a picture.

-
- 4.4 Annexe 6.** Make a picture of the most incredible toy-

Teaching Notes**Teaching Notes**

making machine ever made. Have the students share their pictures in small groups. « Je veux présenter ma machine de fabrication de jouets incroyables » I would like to present my incredible toy-making machine.

Suggested Step:

5. Plan and create the format for the letter.

- 5.1 Review unit vocabulary by playing vocabulary games explained in **Suggested Step 1.3**.
- 5.2 Ask if any of the students have ever written a letter to Santa. « Qui a écrit une lettre au Père Noël? » Who wrote a letter to Santa? Ask what they said in their letters. « Qu'est-ce que vous avez écrit dans votre lettre au Père Noël? » What did you write in your letter to Santa? Make a list on the board of what students said in their letters. Look for answers like dear, what they asked for, from, the date, had been nice or naughty, plans for Christmas vacation, and so on. This is a good time to review **Annexe 12** for criteria for the final project.

Annexe 13 includes a planning sheet for students as they prepare their letters. **Annexe 14** includes the English version of the student planning sheet and is intended primarily for teacher reference.

- 5.3 From the list made above and on poster paper, make a letter that everyone can follow. Make this into an overhead. **Annexe 11** contains a sample letter. Fill in the student letters as a class. If an older grade is doing this unit, they can write their own letter or write a longer letter.

Teaching Notes:

For advanced classes, students can work on their letters in pairs, small groups, or alone. Another option is for the younger students to make up the letters and the older students to type up the letters, add to them, and then email them to Santa.

Suggested Step :

Teaching Notes

6. Practise reading the letter.

- 6.1 Students prepare a corrected version of their letter.
- 6.2 Practise reading the form letter as a class and in small groups. At this point, each student should have an opportunity to read his or her letter to the teacher and share his or her picture.

Suggested Step :

7. Present letters and send them to Santa.

- 7.1 **Annexe 12.** Students can read their letters and show their picture to the class or in small groups while the teacher circulates around the room and evaluates the presentations.

Teaching Notes:

The parents could be invited to this presentation.

- 7.2 Take a trip down to the post office to mail the letters. Another option is to go on the Internet and email letters to Santa. If the students are not skilled at using the computer, an older student could type the letters for them as mentioned in **Teacher Notes 5.3.**

Suggested Step :

8. Reflect on the unit.

- 8.1 **Annexes 9 and 10.** Self-reflection sheets.
- 8.2 **Annexe 11.** Letter to parents.

Recette de biscuits de Noël

You can even make it up to 3 days ahead of time, as long as it is covered in plastic wrap and refrigerated.

- 3 1/2 cups all-purpose flour
- 1/2 teaspoon salt
- 1 cup unsalted butter, softened
- 2/3 cup sugar
- 1 large egg
- 1 tablespoon light corn syrup
- 1 tablespoon vanilla extract

In a medium-size bowl, mix the flour and salt. In a large bowl, cream the butter and sugar, stir in the egg, then the corn syrup and vanilla extract. One third at a time, add the flour mixture until thoroughly mixed. Pat the dough into two disks, wrap in plastic, and refrigerate for 1 to 2 hours, or until firm enough to roll. If the dough is too firm, soften at room temperature for about 5 minutes.

Preheat the oven to 375° F. Roll the dough between two pieces of waxed paper or plastic wrap, 1/4 inch thick. Remove the top sheet of waxed paper and cut out the dough with cookie cutters. Place cookie dough on a baking sheet. Bake for 8 to 10 minutes, or just until the cookies start to brown lightly around the edges. Set the baking sheet on a wire rack and cool for about 5 minutes. Transfer the cookies to racks and cool completely before you frost them. The cookies can be stored in an airtight container in the freezer for up to 1 month and for up to 3 days at room temperature. Makes 12 to 50 cookies, depending on their size.

Frosting:

- 2 cups sifted confectioners' sugar
- 1/4 cup unsalted butter, softened
- 1/2 teaspoon vanilla extract
- 1 to 2 tablespoons milk
- food coloring (optional)

In a large bowl and using an electric mixer set at low speed, beat the confectioners' sugar, butter and vanilla extract until it reaches spreading consistency. Add more sugar or a little milk, if necessary, to achieve the right texture. Stir in the food coloring until combined, if desired. Makes about 1 1/2 cups.

Lettre modèle

le 4 décembre 2000

Bonjour Père Noël,

Comment ça va? Je vais très bien. Pour ma classe de français, je vous écris une lettre. Cette année, j'ai été gentille. J'ai aidé ma mère quand elle a fait le ménage et quand elle a préparé le souper. Pour Noël, j'aimerais une poupée qui mange, une petite chienne et beaucoup de bonbons. Je mets des biscuits pour toi et des carottes pour tes rennes. Merci et au revoir.

Amitié,
Sally

Letter to Parents

Dear Parents:

The Grade ____ class has been working on a Noël, or Christmas, unit in Core French. We have done various activities in this unit pertaining to what Christmas is like at our house, whether we have been naughty or nice, and what we want for Christmas. All of these activities have been leading up to our final project. As a final project, we wrote a letter to Santa.

Our letters are nearly complete and it would be great if you could join us on _____ (date) when each student will read his or her letter to the rest of the class before sending it off to Santa.

If you have any questions or concerns please feel free to contact me at _____ (school telephone number). I hope to see you on _____ (date).

Have a Merry Christmas!
Sincerely,

Core French Teacher
