Winter

Whenever I go outside get cold. When it is warm I go sledding with my friends. I like ice because it is a sport called hockey. You use a stick. Sometimes we have a snow ball fight. Sometimes we might even go to BC for skiing. When we are done playing we cum inside to warm up and have hot chocolate. We might have a fort. You have Christmas on Dec. 25. We have blizzards.

We go skiing in blizzards it is fun.

GRADE TWO

OBSERVATIONS - LEVEL 2

- basic message with some ideas and information
- cues and conventions are 2's and 3's

14

Name _____

The people in my family work. This is what they do.....

My papa drive the bus/
My my mom work at the
my use. My anuty works
at the casino. My uncle
is a cop.

- few related ideas

GRADE TWO

OBSERVATIONS - LEVEL 3

- legible
- spells high frequency
- specific message
- logically organized
- ideas are clear
- describing
- variety of sentence openings
- sometimes uses periods

 - Campfires 7

Dear 2nd Grade Journal I'm going to 2

● tell you all about what I do at campfires. My dad goes and gets wood at the store. When he's at the store we try to find old news papers. We also get some mackes when my dad gets back from the store we put the old news papers in the fire and some of the wood. Then we take the mackes and bite a couple of them. Once the fires ready we all get in the night clothes. Now we get all of the chairs to sit in. I go and get the marshmelos.

 7

● My dad goes to get the roasting sticks. Once he's done people start to make rosted marshmelos we vote from how the perfect marshmelos roster.

12.

Grade 2 - #4

I would like to live in a urban community because my mom has a nice job because she's a great massager her job is in the city. Living in a urban community is fun when you go swimming after school. in a rural community you might have to drive to the city to the pool. This would take a long time. There are lots of stores so if at one store if they don't have what you need you can go to a another store. There are also nice people walking in the street that you can say hi. to in the city.

GRADE TWO

OBSERVATIONS - LEVEL 3

- specific message
- ideas are clear and organized
- punctuation
- key ideas/facts in own words
- enriching detail

Grade 2 - #4

Living in a Rural town

I would like to live in a Rural COMMUNITY! I want to live there because you discover lots of nature like finding a frog near your door and you are 4 or 5 Miles from the creek! I also want to live there because you can have lots of bonfires, I know that because there is lots of wood and wheat and hay. Also I want to live in a rural town because you get to hunt a lot. I put this in the letter because I like pork Ribs and Deer sausage. Living in a rural community would be cool!

GRADE TWO

OBSERVATIONS - LEVEL 4

The Ocean Habitat

Did you know that coral reefs are in DANGER? Coral reefs were around even before dinosaurs. There is a little plant ^{called algae} inside coral that makes the coral's colour. Did you know that coral is animal? Coral can come in many different shapes, sizes, and colours. Thousands of tropical fish live in coral reefs. When the weather is too warm the coral may bleach and turn white. A colony of coral can be as big as a house.

Some fish live in the bottom of the ocean and have a light to attract other fish for food. They flash their light attract their prey.

An octopus has no backbone so it can fit in very skinny places. When an octopus is being attacked it squirts ^{black cloud of} ink and turns white and swims away. And sometimes it might lose a leg but it will usually grow back.

attack squirt
