EDMONTON

Every time I go to Edmonton I stay at my aunt Debbie's. Whenever we get bored we play wii. My favorite part of the day is at night because we get to tell jokes. Whenever we are on the couch we play with her dog.

Whenever its some ones birthday we go to the West Edmonton Mall and go swimming and tubing. We also like to go on the roller coasters. But the most fun is shopping with my aunt Debbie.

The best thing is the food in Edmonton, its so good and tender. My favorite restaurants are *Boston Pizza, DQ, Subway, Fudruckers* and *Taco Time*. That's why I like Edmonton.

Sea Otter Rescue

A while ago the Exxon Valdez oil tanker crashed. It happened on March 23, 1989 in the Prince William Sound, Alaska. This crash caused many animals to die.

It crashed because it had its auto pilot on and it couldn't turn. The oil spread to a total range of 11,000 square miles. The reason animals died was because of the oil. It was sticky and poisonous.

Many people volunteered to help save the otters. They would save the otters by giving them needles and washing off all the oil. They also checked on them about 5 times a day. 75% of the sea otters brought in were saved, although thousands of animals died.

Eventually they cleaned up the water. They cleaned up the water with oil barrels. Many animals died here are some. There where many birds fish and sea otters.

Some oil still remains at the coastline of Alaska. The next time an oil spill happens we should think of ways to prevent it from killing this many animals, and we should get more double hull oil tankers to.

The End **OR IS IT!**

Australia

Australia is filled with beautiful nature areas. Kangaroos, kookaburras (a type of bird), and koalas are some of the animals but, there are many more. There are flowers too! My favourites are the beautiful perennials and the red bottle brush.

Family fun is in Australia too! Swimming and climbing mountains are some of your choices, but there are many more.

Australian celebrations are awesome. Australia day is one of them and Christmas. Australia day is like our Canada day but in Australia. Christmas is basically the same as here, but they celebrate it different. Sometimes even put a stuffed koala on their tree, instead of the star. Australia is awesome!

Chocolate

Chocolate is the best treat in the world. I bet if you ask anyone in Saskatchewan what their favourite treat is, they will say chocolate. Did you know that?

Did you know that chocolate grows on trees? BUT! That doesn't mean you can go up to that tree and pick a chunk of chocolate. In fact, if you pick the thing of chocolate and eat it it will taste nothing of chocolate.

Chocolate is used for many things. It is used for drinks,

baking, Choco. chips and more.
My favourite chocolate thing is:
choco covered ~~raisins~~ chocolate
is delicious, but unhealthy

Boat safety

Boat safety is very important. You should always be prepared. If you are not a safe boater it could be a matter of injury or death. I hope this article encourages you to do all of these tips.

The forecast, is very important because if it is really stormy and your boat is rocking very hard you could fall out of the boat. That is why always before you go out on the water check the forecast. if it is sunny go and have fun and if it storming and very windy don't go then you will be safe. Reminder to check the weather because then you will have a more enjoyable time on the water.

Here is another tip to help you stay safe on the water. It is Gear that is very important. It is important because if you are sitting on the edge of the boat, and the boat starts moving surprisingly you could fall off the edge of the boat and drown. A way that you can stay safe is where a life jacket at all times because it will help you whenever you are in a bad boating accident or any other dangerous situation. That way if there is a little person on the boat and they do not know how to swim then they will be safe. Also remember whenever you are going boating where a life jacket or even bring an extra life jacket in case someone forgot their life jacket. This will make sure that you don't drown. Please feel free to use this gear or any other gear that might help you stay safe on the boat.

Now we have our last tip for being a safe boater. That tip is mapping out where you are going to go when you are boating. It is important to make a plan where you are going to go because if you get lost in a big lake it might take you forever to find your way back. Mapping out where you are going to go is a very important part of being a safe boater because it shows real responsibility, all of these tips do. I hope that you can learn something from all of these tips and maybe even add some of your own tips.
